

WE COVER UP BEAUTIFULLY

We are Proflex. Aesthetically appealing roofs

Proflex Roofs are striking and come in innumerable colours, resulting in an interesting attractive look of your building.

Proflex uses innovative American technology that facilitates unique arch shaped Roofs, which gives strong aesthetic appeal to any building. Proflex Roofs comes with choice of different colours, so that you can give a distinct identity to your building. More so, the completely enclosed Roof spans ensure no bird nuisance, providing cleaner and more hygienic buildings from inside.

All these lead up to beautiful and clean buildings, covering up your critical space. 60 Lakh sq. mts. of Proflex Roofs have been installed in more than 3500+ project across India, making it an ideal Roof for all your needs.

- Long Lasting and Cost-effective
- 100% Leak Proof
- Unobstructed Large Spans up to 35 mts.
